

RoadMap

Quarter 1 (Q1 2023)

- ★ Concept and Research: Identification of the main idea, blockchain platform to be used, competitor analysis, and market potential
- ★ Development Team: Recruit a development team, including blockchain developers, game developers, finance experts, and marketing teams.
- ★ Prototype Design: Create initial prototypes for GameFi games and token platforms.

Quarter 2 (Q2 2023)

- ★ Smart Contract Development: Develop smart contracts for utility tokens and digital assets in the game.
- ★ Website and Social Media Launch: Create an official website, activate social media accounts, and start building a community.
- ★ First Airdrop: Airdrop to the crypto community and token holders who have participated in the project.

Quarter 3 (Q3 2023)

- ★ GameFi Development: Focus on developing GameFi gameplay features and mechanics, as well as game graphics.
- ★ Second Airdrop: Airdrop to the crypto community and token holders who have participated in the project.
- ★ Alpha Testing : Alpha test the game internally and prepare it for beta.

Quarter 4 (Q4 2023)

- ★ Open Beta: Open the beta to external users for feedback, large-scale testing, and security evaluation.
- ★ Ecosystem Development: Collaboration with Partners, Exchanges, and Platform NFT

Quarter 1 (Q1 2024)

- ★ Official Launch and Token Listing: Official Crypto GameFi releases internal tokens and starts the listing process on leading crypto exchanges.
- ★ Intensive Marketing: Conduct a strong marketing campaign to attract players and investors.

Quarter 2 (Q2 2024)

- ★ Ecosystem Extension: Continue to build the ecosystem by bringing more content and features to the game.
- ★ Evaluation and Improvement: Continue to listen to user feedback and improve as needed.
